

# DRIVE-THROUGH VACCINATION CLINIC

# COVID-19 VACCINATION HUB

## WHAT TO DO

-  **Stay in your car. Everyone must stay in the car at all times.**
-  **If you need help, beep your horn.**
-  **Be careful and drive slowly. A traffic person will help you.**
-  **Watch out for people and metal poles.**
-  **Turn off your car, open the window and turn off any air conditioner / heater.**
-  **Keep your car turned off.**
-  **Get your Medicare card and photo identification ready.**
-  **A nurse will give you the injection.**

9.

**Wait for 15 minutes, staying in your car. Staff will check you are OK.**

10.

**After you have been checked, staff will take off the white sticker from your car window.**

12.

**Staff will ask you to start your car.**

13.

**Be careful and drive slowly when you leave.**

## GET MEDICAL HELP IF:

- You think you are having an allergic reaction.
- You have chest pain, pressure or discomfort, fast or slow heartbeat, skipped beats or 'fluttering', fainting, short breath or pain with breathing
- You are worried you have a side effect or have new symptoms
- You have side effects of the vaccine which has not gone away after a few days.

If you only feel a little sick, you can see your usual doctor.

**Call 000 if you have strong symptoms, like difficulty breathing, wheezing, a fast heartbeat or collapsing.**

Thank you for getting vaccinated today.

You are protecting yourself, family, friends and the community from COVID

**COVID-19**

**VAX**
